Northern Excellence in Active and Healthy Ageing Symposium

Delivering excellence in Active and Healthy Ageing alongside some of the most innovative practice in Europe

Tuesday 6th June 2017, Horizon Conference Centre, Brewery Wharf, Leeds, LS10 1JR

North West Coast | Greater Manchester | Yorkshire & Humber | North East

This exciting symposium being supported by the Northern Health Science Alliance (NHS A), sees Greater Manchester AHSN, The Innovation Agency (North West Coast AHSN), North East Coalition for Active and Healthy Ageing and Yorkshire & Humber AHSN, working together in collaboration to:

- * Showcase award winning, best examples, in older population health from across the North of England, demonstrating why they were all awarded 'Reference Site' status for their "innovative and comprehensive approach to healthy ageing with concrete evidence of the impact of their work on patients' health" by the European Commission in June 2016
- * Launch the start of an exciting trans-regional programme of collaboration in active and healthy ageing
- * Have national and international experts presenting on the subject of active and healthy ageing

Through the European Innovation Partnership on Active and Healthy Ageing (EIP-AHA); Greater Manchester AHSN, the Innovation Agency, Yorkshire & Humber AHSN and The North-East Coalition can place their work in delivering excellence in Active and Healthy Ageing on the centre stage, alongside some of the most innovative practice in Europe. Through receiving EIP-AHA Reference Site status, each organisation's innovative approaches and outcome focused work across the North of England is recognised as leading to increasingly structured and cross-cutting collaboration in the planning, assessment and delivery of care for older people.

Key Contact:

Nicki Wilson, Operations and Strategic Projects Manager
